Your comments on the strengths of this AI:

Nic has been an excellent AI. The primary task involves grading papers, and Nic grades fairly, quickly, and thoroughly. He provides helpful comments for students and he doesn't inflate the curve, as often happens in these types of classes. It speaks to the fairness of his grading and the detail of his comments that, even though the curve on the exams was appropriately difficult, there were very few complaints.

Beyond the grading, Nic has been very organized and a huge help in keeping the class going. This was a tough semester for me with out of the classroom obligations, but thanks to Nic the students always had someone to go to and we didn't fall too far behind on the material. Overall I'm quite thankful to have had the opportunity to work with Nic this semester.

Your comments on the weaknesses of this AI:

none

Suggestions for the AI:

Next time you have an opportunity, it would be good to get some experience actually doing a lecture or two, just to get a taste of it.
